PATENT AND TRADEMARK OFFICE

Reissue Declaration and Power of Attorney

As a below named inventor, I hereby declare that:

My residence, post office address and citizenship are as stated below next to my name.

I believe I am the first, original, and sole inventor of the subject matter which is claimed in an application for reissue related to U.S. Patent no.. 6,357,893 B1 (hereinafter the "original patent"), issued on March 19, 2002, inventor Richard S. Belliveau, and for which a reissue patent is sought on the invention entitled "LIGHTING DEVICES USING A PLURALITY OF LIGHT SOURCES" the original patent of which, and the reissue application and amendment of which is attached hereto.

I believe that the original patent was wholly or partly inoperative or invalid by reason of a defective specification or drawing or by reason of the patentee claiming more or less than the patentee had the right to claim in the patent, including that added reissue application claims 13-78 allow the present invention to be more thoroughly covered.

All errors being corrected in this reissue application up to the time of the filing of this oath or declaration under 37 C.F.R. 1.175(a)(2) arose without any deceptive intention on the part of the applicant.

I hereby state that I have reviewed and understand the contents of the above identified specification, including the claims, as amended by an amendment, if any, specifically referred to in this oath or declaration.

I acknowledge the duty to disclose all information known to me which is material to patentability as defined in Title 37, Code of Federal Regulations, 1.56.

I hereby claim foreign priority benefits under Title 35, United States Code, 119 of any foreign application(s) for patent or inventor's certificate having a filing date before that of the application on which priority is claimed:

None

I hereby claim the benefit under Title 35, United States Code, 120 of any United States application(s) listed below and, insofar as the subject matter of each of the claims of this application is not disclosed in the prior United States application in the manner provided by the first paragraph of Title 35, United States Code, 112, I acknowledge the duty to disclose all information known to me to be material to patentability as defined in Title 37, Code of Federal Regulations, 1.56 which became available between the filing date of the prior application and the national or PCT international filing date of this application:

This application for Reissue claims the priority benefit of U.S. patent application no. 09/526,499 which issued into U.S. Patent No. 6,357,893 B1.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

I hereby appoint the following attorney(s) with full power of substitution and revocation, to prosecute said application, to make alterations and amendments therein, to receive the patent, and to transact all business in the Patent and Trademark Office connected therewith:
